FYI- this is the briefing paper for Brian. And my comments on Brittany's paper (404(g) and mitigation).

Hey Kathy and Whitney –

Regarding the mitigation rule and tomorrow morning's meeting. I'll be at the Brian briefing and covering some of the issues we've discussed relating to assumption. This is a high level briefing on the rule overall with a primary focus on the major changes Corps proposed. I don't think we need the assumption rule team represented en force, since 404(g) will only be a couple minutes worth of the discussion.

Ex. 5 Deliberative Process (DP)

I am adding the other comments to the draft mitigation rule.

Thanks,

Brittany

Sorry for the delay: I was pulled off to address something Friday and then yesterday

Ex. 6 Personal Privacy (PP)

Ex. 5 Deliberative Process (DP)

Sometimes what looks like a duplication is really the same issue raised under mitigation and then also under in-lieu fee or other sections of the regulations.

I know you will be reformatting for two different purposes/uses. Hopefully my sub-bullets provide you with the reg change location and rationale as to why these areas affect S/T programs and where coordination between the regulations will best serve all 404 programs.

Thank you so much for pulling this together.
